                                                                                                                                                                                                                                                                                                                      was hydrodynamically sheared by repeated passage throug 0.005 inch orifice at constant velocity. The sheared DN was blunt end-repaired with T4 DNA polymerase and T4 polynucleotide kinase. Adaptor oligonucleotides were ligated to the blunt ends in high molar excess. The adaptored DNA was purified and size-selected for a 9.5 10.5 kb range using preparative agarces.
                                                                                                                                     10.5 kb range using preparative agarose gel electrophoresis. Vector DNA was prepared from a derivative of pWD42 (gi|4732114|gb|AF129072.1), a copy-number inducible derivative of plasmid R1. The vector was ligated with adaptors complementary to the insert adaptors and purified. The sheared, adaptored mouse DNA was annealed to
adaptored vector DNA, and transformed into chemically-competent E. coli XL10-Gold (Stratagene) cells and selected for ampicillin resistance."

Size with a combination of EcoRI onto the pBACe3.6 vector at the selected DNA was cloned into the pBACe3.6 vector at the EcoRI sites. The ligation products were transformed into EcoRI sites. The ligation products were transformed into DH10B electrocompetent cells (BRL Life Technologies). The DH10B electrocompetent cells (BRL Life Technologies).
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      Location/Qualifiers
